PERSONAL:

Summary: Ambitious international student with a proven track record of meticulousness in web & software design and development. My journey as a self-taught UI/UX designer and proficient MERN-Stack developer is underpinned by a relentless dedication to crafting immersive, interactive, and user-centered solutions. In my pursuit of a career in software, I am driven by permanent student-mentality and the vision of collaborating with a dynamic team of professionals, pushing the boundaries of technology, while transforming concepts into unforgettable user experiences that leave a lasting impact.

Hobbies: Badminton, Athletics, Soccer, Fitness, Meditation, Art & Design

Qualities: Quick and hungry Learner, Creative/Innovative, Team-player, Punctual, Brainstorming, Focused, Versatile

TECHNICAL SKILLS:

Languages: JavaScript, JQuery, Python, Java, C++, Dart, HTML5, CSS/SCSS, Typescript

Frameworks: React.js, Vue.js, Node.js, Express, Bootstrap, Flutter

Developer Tools: Git, VS Code, Visual Studio, IntelliJ, WebStorm, Docker, Trello, Linux

Libraries: Pandas, NumPy, Matplotlib

Databases: PostgreSQL SQL, MongoDB, Mongoose

Design: Figma, Adobe Illustrator, Photoshop and After Effects, Blender, Product Design, Prototyping, Wordpress

Other: REST APIs, Responsive UI Design, Debugging, Troubleshooting, Problem-solving, Maintainable Code, Agile Development, Version Control, Scalable Applications, Widgets, MERN-Stack, Data Structures & Algorithms, Wireframing, Visual Standards, User Interface, User Experience

EDUCATION:

Bachelor of Science in Computer Science   Sept. 2020 – Sept 2024 (Expected)
Ontario Tech University   *Oshawa, ON*
- Dean's Honors List Designation, Fall 2020

EXPERIENCE:

Sales Associate - Charities   June 2022 – Currently (Part-Time)
The Network Incorporated (TNI)   *Whitby, ON*
- Promoted to leader, trained new hires, built a team, co-ran work trips and helped manage the office.
- Raised around 8,000$ worth of Monthly Donations to charities like The Canadian Red Cross, UNICEF, OXFAM, CNIB and PLAN with the minimum intention of donating for 12 months. Signed up a total of 250+ monthly donors in less than a year.
- Achieved awards such as "Rep of The Month" for UNICEF in August 2023, competing with around 180+ other reps. References available upon request.

(Co-Founder) UI/UX Designer & Front-End Developer   Jan 2021 - August 2022
Applystart.com - An online service to make international university applications easy for students.   *Bangladesh*
- Worked with a team of 3 to come up with an effective user experience for students so they can smoothly navigate the app, find what they're looking for and start making applications to universities abroad.
- Created custom illustrations and animations which effectively communicated the purpose and intentions of each step while also creating a sense of brand-image.
- Designed the UI using design tools such as Figma, Illustrator and Photoshop to produce a clear visual of what we were aiming to create.
- Built the entire UI for the web-application using ReactJS and configured & customized UI/UX templates using JavaScript, HTML & CSS/SCSS to meet Applystart's needs, making sure the UI is Responsive as well on all devices. References available upon request.

UI/UX Designer | **Logo Designer** | **Digital Artist**   September 2020 - Jan 2022

Freelancer | *Fiverr*   *Online*

- Designed Web UI/UX and won contests on Freelancer leading to good reviews, feedback and returning clients.
- Created vector illustrations, digital art, logos, banners, covers and other creative assets to fit the client's business needs.
- Created a collection of 7,777+ high-quality NFTs as the Lead Artist. For reference please visit: chihuahua.army
- Communicated thoroughly and provided effective revisions when needed in order to satisfy all necessary requirements before any deadlines. References available upon request.
- Achieved 100% ratings on Freelancer on categories such as "Jobs Completed", "On Budget" and "On Time" and a 50% "Repeat Hire Rate", all of which demonstrated the ability of meeting deadlines and delivering quality work.

PROJECTS:

(Personal) - Portfolio Website | *React.js, Node.js, JavaScript, HTML, CSS/SCSS/SASS, Adobe Illustrator, Adobe Photoshop* 2023

- Designed the webpage in Figma to get a real visual on how I want the page to feel like.
- Coded the portfolio app using React.js and created custom illustrations & animations to create a smooth user flow & experience.
- Created React components and added custom CSS/SCSS stylings from scratch to match the Figma prototype.
- Made appropriate and custom usage of public libraries and packages via NPM.
- Made the entire app responsive so it looks and feels great on all devices (desktop, tablets, phones etc.)

(Collaborative) - Music Player App - Audiowave | *Vue.js, JavaScript, HTML, CSS/SCSS/SASS*   2023

- Worked with a team of 5 and took responsibility for designing the entire UI and Front-End for the App in Figma to provide all team members a clear image of what we were trying to create.
- Built the entire UI of the app using Vue.js, creating components from scratch such as the "Navigation Sidebar", "Song Item", "Playlist Item" etc. Made use of JavaScript, HTML and custom self-written CSS/SCSS.
- Created transitions and animations to give it a smooth and professional feel.
- Made the entire app responsive so it looks and feels great on all devices (desktop, tablets, phones etc.)

COURSES/CERTIFICATIONS:

- **The Complete 2022 Web Development Bootcamp (UDEMY)**
- **Advanced CSS and Sass: Flexbox, Grid, Animations and More (UDEMY)**
- **Learn Photoshop, Web Design Profitable Freelancing 2023 (UDEMY)**
